LTS Technology News 2020-01

Overview

1. PMS - interface free of charge for members of the tourism association2
2. PMS - Payment of the local tax via pagoPA2

In this issue of LTS Technology News, we once again want to inform you about the latest topics and terms. If you have further questions, please contact the LTS Service Desk (ticket@LTS.it) by e-mail.

1. PMS - interface free of charge for members of the tourism association

For the members of the tourism association the PMS interface is free, non-members have to pay an annual fee of 240,00 €. Since 2018 the interface is also free for the PMS provider.

2. PMS - Payment of the local tax via pagoPA

For the payment of the local tax, the LTS has implemented the new payment system pagoPA. This change will be activated, systematically for each municipality in cooperation with the Südtiroler Gemeindenverband (SGV). Marling, Sarntal and Terenten are the first municipalities, which will make the report for September 2020, with the new system. All other will be migrated by January 2021. For the PMS will be generated a new PDF for the pagoPA and we added a new error message (code E50201) the rest from the PMS remains the same.

In case of error message with code E50201, the invoice data of the company is not complete in TIC-Web.

Yours sincerely,
the LTS Team
